

5 Meters Antenna Extension Cable

TL-ANT24EC5S

◎ Features:

- Easy to install and use
- 5 meters in length allows you to relocate your antenna to a optimal position to maximize the wireless performance
- Features higher performance low loss CFD-200 cable with excellent flexibility
- RP-SMA Male to Female connector

◎ Description:

What happens when your wireless signal is too weak to connect to an access point in another building and you want to better position your wireless antenna in a higher or wider place to get a better signal? The antenna extension cable is the answer to your problems. There is no need to move your access point or wireless router, which may sometimes be immovable, from place to place. With the several kind of low-loss extension cable, you will have more flexibility to move your antenna in order to maximize your wireless performance.
